PROFILE

Materials Engineering graduate (BSc, Federico II, 101/110) currently enrolled in the Materials Engineering MSc. Certified Sound Technician (EQF 4) and self-taught music producer. iOS developer at the Apple Developer Academy in Naples and winner of Apple's Swift Student Challenge 2026. Versatile profile bridging engineering, audio, and software, driven by curiosity, problem solving, and teamwork.

EDUCATION

MSc Materials Engineering <i>Università degli Studi di Napoli Federico II</i>	<i>Oct 2024 – Present</i>
Apple Developer Academy <i>Università degli Studi di Napoli Federico II</i> Full-time iOS development programme. Built 7 apps across team and solo projects; winner of the Swift Student Challenge 2026.	<i>Oct 2024 – Present</i>
Sound Technician — EQF Level 4 <i>Regione Campania</i> Regionally funded qualification, delivered through ACTA as the accredited training body linking Regione Campania to the course. Covered sound design, signal routing in live audio and AV systems, live mixing, and studio recording techniques. Stage (internship): Teatro TAN, Piscinola (Naples) — hands-on live-audio, live mixing, and stage AV work.	<i>2024 – 2025</i>
BSc Materials Science & Engineering (L-9) — 101/110 <i>Università degli Studi di Napoli Federico II</i> Thesis: sound-absorbing porous materials for room acoustic treatment — polyol- and isocyanate-based foams. Laboratory activities (2020–2024): hands-on lab work in rheology, absorption spectroscopy, chemical foaming of polyurethanes, and general chemistry.	<i>2019 – 2024</i>
Scientific High School Diploma — 99/100 <i>Liceo Scientifico Tito Lucrezio Caro</i>	<i>2014 – 2019</i>
Intensive English Course (C1) <i>Bournville College, Birmingham, UK</i> Summer immersion programme fully funded by the European Union: classroom study, exams and a homestay abroad, reaching C1 level and strengthening cultural exchange.	<i>Jul – Aug 2018</i>

EXPERIENCE

iOS Developer <i>Apple Developer Academy & freelance</i> Designing and shipping SwiftUI apps, several with on-device AI (FoundationModels, Vision). Released on the App Store and TestFlight.	<i>2024 – Present</i>
Music Producer <i>Self-employed</i> Self-taught producer covering composition, sound design, mixing and mastering across genres. Audio-visual live performance using TouchDesigner for real-time generative visuals. DAWs: Ableton Live, Logic Pro, FL Studio.	<i>2014 – Present</i>
Bar Staff <i>Vesuvius Soul Records, Naples</i>	<i>Nov – Dec 2023</i>

SELECTED PROJECTS — APPLE DEVELOPER ACADEMY

PocketChop — coming soon on the App Store Swift Student Challenge 2026 winner. Built in Swift Playgrounds — SwiftUI · AVFoundation · AudioKit.	<i>2026</i>
Tinto — App Store Museum companion for children: scan artwork, extract its colour palette, mix primary colours to unlock each shade.	<i>2026</i>
Storease — currently on TestFlight Point the camera at a photo — Vision and FoundationModels (on-device LLM) generate branching story options. Memories become narrative.	<i>2026</i>
2089 — currently on TestFlight Decision-making narrative game set at humanity's breaking point. Three factions, one player, branching outcomes.	<i>2026</i>
